Evert Trollip

Software Engineer

EXPERIENCE

Senior Software Engineer & Frontend Team Lead
CTG Consulting GmbH
January 2021 - Present, Germany

Responsible for scalable frontend software and leading the team, collaborated with developers, product owners and stakeholders to continuously design UI/UX features, create user stories, maintain the sprint backlogs, and prioritize features and other issues for development. Assisted in the recruiting and interview process of required resources and managed the onboarding process of new employees. Mentored and peer reviewed junior web developers.

Software Engineer & Frontend Developer
CTG Consulting GmbH
April 2019 - December 2020 - 1 year, 8 months, Germany

Collaborated with developers, project managers and stakeholders to develop and maintain software to facilitate company administration and recruiting processes. With a focus on frontend development, setup a complete development environment with Continuous Integration (CI) and peer reviewed fellow team members work. With scalability in mind, introduced Agile processes and tools such as Jira from Atlassian, customised and integrated into the team development processes.

Applications & IT Specialist
kerlco GmbH
November 2018 - February 2019 - 4 months, Germany

Employed as an Applications Developer in the field of ecommerce IT Services. Guided by a mentor and expert in the field, equipped with various technical tasks to improve the e-commerce activities of the company. These activities included: Warehouse Management, Logistics, Automation and Processes, Shipping, Sales / Marketing, IT services
